

Date: 2/5/2018 - 2/11/2018 Week5

This week

A little work because of three terrible midterms.

Add part of coding to find the number of the last column.

```
nes=neslack.split('\n')
sth=[]
for str in s:
    if re.search(r'.*\[A-Z0-9*\]\s*(-?\d+\. \d*)?\s*(-?\d+\. \d*)?\s*(-?\d+\. \d*)?\s*(-?\d+\. \d*)?[a-z]', str):
        sth.append(str)
        #print(str)
        a=re.search(r'.*\[A-Z0-9*\]\s*(-?\d+\. \d*)?\s*(-?\d+\. \d*)?\s*(-?\d+\. \d*)?\s*(-?\d+\. \d*)?', str)
        #print(a.groups())
        s=a.groups()
        s=list(s)
        if None in s:
            s.remove(None)
        print(s[len(s)-2])
```

Next week

1. Working on last coding.
2. Making a GUI table.

Issues

1. Learning more Python regular expression.
